

Microsoft Windows Server 2003 End of Life What it means to your business..... and how **DCi Technology Solutions** can help.....

The time to plan is now.....

The impact is on companies of all sizes

As of **July 14, 2015** Microsoft Windows Server 2003 is End of Support.

What that means:

Microsoft will no longer offer security updates

Microsoft will no longer offer support

Microsoft will not provide technical content updates for the O/S.

Security patches and Hot Fixes will no longer be available—

Leaving your servers and applications vulnerable to
security threats and downtime.

Compliance Risks –running outdated software

Windows Server 2003 and the workloads and applications
running on it will become more expensive to operate

How DCi can help.....

*Our Server / Network specialist will perform a **FREE** server
Assessment.*

*We will provide you with a **written summary** to document our
findings and our recommendations.*

Key Benefits:

*Replacing your 8-10 year old server will save an over all Total
Cost of Ownership over 3 year period.*
